

The Smell Challenge

Challenge your family's sense of smell with this fun life science activity!

You will need:

- Several strong-smelling items like coffee, garlic, onion, lemon, oranges, vinegar, cinnamon, etc.
- One small opaque container for each item.
- Paper
- Pencil
- Table

Instructions:

- Place a small amount of each strong smelling item in the containers.
- Place all the containers on the table.
- Challenge each of your family members to identify the item in each container by using their sense of smell.
- Hand out a piece of paper and pencil to each person to write down their guesses.
- Each correct answer gets one point.
- How many points did each person get?
