

Hi Class Challenger,

Hope you are all doing well. I am enjoying seeing some of the work that has come in and finding out how you are getting on at home when I phone home.

I hope you are managing to work through some of the shape activities in the Maths pack, remember not every activity may be suitable for you, some may be too easy so move onto another one or some may be too difficult and this can be missed out.

Last week I sent a few number activities around addition.

This week I have put in some time activities, we have looked at time recently but it would be good to go over some activities and see what you can remember.

In class we used a lot of the interactive games from the website Topmarks – if you put this into Google you will be taken to the Topmarks website. Type in “Telling time” in the search bar and there may be some games you have played before and some new ones but these are great for practising time and choosing a level which suits you. Also feel free to play Hit the Button on Topmarks and try to beat your own score.

If a reminder is needed for telling time there are some good videos on Youtube.

For example : <https://www.youtube.com/watch?v=8RJzoylVzV8>

I have also attached some more number work as well if you have completed the others.

Again I will be attempting phone calls on a Tuesday morning from 9.30am onwards so if you have any questions, concerns or ideas I can speak to you then. Looking forward to seeing some more work from Challenger.
