

Term 4 week 5:

Hello everyone. It was good to see everyone's report cards coming back in with lovely comments on them. Sonny and Isabelle have had great fun and sent some nice pictures for us to see what they have been up to. Sonny, Isabelle and Lynden have dropped off some of their pack for me to look at as well.

It is coming up to time for our outdoor learning day so I thought we could do an outdoor learning week this week. Find a few things appropriate for your child. There is a variety of numeracy, literacy, art and science tasks. Also, anything they may already have done outside would be lovely to see. We are always looking for positive photos for the website.

The topic is mostly about mini beasts. They may appear to be creepy but all play an important job in our ecosystem, particularly bees just now. Thanks to all their hard work and pollination we have food. See what you can learn. For those who feel up to it, there is a research task where you can write a few lines about each insect and the important roles they have.
