

New maths Challenge

Please log in at www.sundog.com or download the “sundog” app

A device as well as Internet connection will be required to complete this activity.

Log in details will be sent to your own e-mail (username and password)

The school code is westfield11

Mrs Jack has set up various tasks for each student to complete. The tasks run from Tuesday to Tuesday.

When you log in, choose MATHS, it will then take you to your own account. At the LEFT hand side there is a tab TASKS — click on the tab and scroll down where you will find specific Maths games to play and win points.

It will take a bit of getting used to I am just finding my way round it now but it is another option and resource for Maths which will be specific to you, interactive and a little different from the other activities uploaded.

Give it a try and see how you get on! I can log in and check your scores and what activities you have tried.

Thank you

Mrs Jack
