

Term 4 wk 6:

Hello again everyone hope you have all had a lovely weekend and ready for hopefully another nice week.

This week I have put on a few spot the dangers because as lock down lifts (or releases a bit) going to the beach and other water places will become a big part of our lives.

It is a great place to have fun but also we have to be aware it can also be a very dangerous place.

This weeks online focus is to be on life skills (a bit of general knowledge) and jobs we can help with and around the home. How much of the grid can we complete? Even if one member of our family does it and the rest watch it still counts (for example changing the light bulb).

Any one who completes all this or wants a change can work on their "Teach your monster to read" your login details will be emailed to you individually and for some numeracy work we can go to:

<https://www.topmarks.co.uk/maths-games/5-7-years/counting>

Increase the age range if you are copping well and have a try of a few games in each topic that you fancy.

Let me know which games you liked best. What topic areas were you struggling with?

I am making up new packs but if you need a job you can go back and try some of the online work from past weeks or have a look at what tasks have been set for other classes and see if there is anything you fancy.

Keep safe and have a lovely week.

Mr Webster.
