

Den building!

Have fun with cushions, blankets and throws to create exciting and cosy dens to play, chill out and hide in. How many ideas can you create!?

Here are some ideas myself and my daughter made in our living room.

We used the back of the sofa and two dining chairs to create a cosy den.

We used our sofa cushions and blankets to create a fort!

We used four dining chairs, blankets and cushions to create a castle.

Use your imagination and enjoy den building. Why not bring some torches, colouring or have a den picnic inside. Have fun and lots of giggles creating your dens.

Please take photos to share your fun.
